2. COVID-19 Infection Prevention & Control

In response to the Covid-19 pandemic; LauraLynn Ireland's Children's Hospice created an internal Covid-19 group, which met on a weekly basis from 6th March 2020 to monitor the situation and discuss contingency plans as and when required. As the situation continued to rapidly change, the group met on a daily basis to monitor daily updates from the Health Protection Surveillance Centre and manage operations in line with the guidelines from the Department of Health. Decision-making is based on Public Health advice in the interest of service users, staff, volunteers & supporters.

The following notes document the changes in practice affected by Covid-19:

Note 1: In order to facilitate social distancing and maintain health and wellbeing of children accessing respite, the designated service is operating its respite care at a reduced capacity to ensure children can access single bedrooms.

Note 2: Day service placements have commenced back on a phased basis. The residential care team support children and adults to access virtual supports from volunteers including 1:1 FaceTime calls with buddies, music sessions and storytelling, when they cannot come in on site. The Activities Coordinators have a schedule of activities in place including reading, musical recitals, therapeutic play, bowling, cinema evenings, painting, cooking/baking, Special Olympics etc.,

Note 3: The service manages visiting in line with public health and HSE guidance. Individual Risk Assessments are completed and updated guidelines on visitor restrictions are on display in prominent areas in the Service. Service users are supported to connect with families through telephone, skype, zoom and FaceTime calls.

See Appendix 5, COVID-19 Contingency Plan and Returning to Work on Site Safely.

3. Services and facilities provided in the Designated Centre

a. Aims and objectives of the Designated Centre

The Children's Sunshine Home, operating as LauraLynn, Ireland's Children's Hospice (The Service) is a voluntary healthcare organisation. Established originally as The Children's Sunshine Home, it is funded primarily under Section 38 of the Health Act by the Department of Health through the Health Service Executive for the provision of an agreed level or quantum of service under a service level arrangement. Additional funding is received through other sources such as grant aid and public donations. We operate in accordance with our Vision & Mission statement and in keeping with the statutory requirements and standards applied from external sources, such as HIQA, DOH, HSE, and Child Protection Services. The Service is a Registered Charity, and is a Company set up under the Companies Act, limited by Guarantee and not having a Share Capital.

Written By: Anne-Marie Carroll Director of Nursing	Date Issued: 31.01.22	Revision Number: 26
Approved By: Niall McHugh – Chairman Board of Directors	Review Date: 31.01.23	Page 4 of 44

Mission

Our mission for our disability service is to provide a Community of Care that delivers;

- evidence-based, personalised services to children with complex care needs and complex disabilities, and
- a home to our residents where quality-of-life is paramount

We will strive to advance the development and delivery of services to those we support through advocacy, research and education, and to deliver exemplar, holistic care; within a dynamic culture of compassion, collaboration and excellence.

Our ambition ultimately is that the children and adults in our care are supported to reach their full potential.

Objectives

In 2019 the Service launched our Strategic Plan 'Growing a Community of Care' for 2019 – 2023, which outlines our core focus for the disability service as to:

- Extend our children's disability respite service in the greater Dublin area to serve more children and families.
- To enhance our adult disability service to ensure it's an exemplar service and the best possible one for our residents.
- To build the financial, human, educational and reputational resources necessary for us to achieve these ambitions.

These objectives reflect our determination to **make every day better for those in our care** through the provision of high-quality, clinical and social care, in an environment that promotes inclusion, having fun and making the most of every moment.

Values

Our three values, Compassion, Collaboration and Excellence underpin every aspect of care and support provided. We believe in delivering excellence by providing hospitality to all who come in contact with us and we promote dignity, respect and compassion towards every child or adult and their family.

Written By: Anne-Marie Carroll Director of Nursing	Date Issued: 31.01.22	Revision Number: 26
Approved By: Niall McHugh – Chairman Board of Directors	Review Date: 31.01.23	Page 5 of 44

b. Specific care and support needs that the designated centre is intended to meet

The Designated Centre supports

- adults with severe/profound intellectual and physical disabilities in Residential care 24/7, 365 days per year in "Willow View".
- children with severe/profound intellectual disabilities, accompanying physical disabilities and complex care needs, with Respite and Crisis Care, 24/7, 360 days per year in "Hazel House".

Specific Therapies: All therapies are provided through a referral process, some as a shared resource between Disability and Children's Palliative Care services. Health and Social Care Professional Posts are funded either through the HSE or are supported through The Children's Sunshine Home Trust, through its fundraising activities. The specific therapies include

- Physiotherapy
- Occupational Therapy
- Dietetics service

c. Facilities which are to be provided to meet those care and support need as described above

In order to meet the care and support needs of children and adults using the service all bedrooms and bathrooms are fully equipped to support children and adults with physical disabilities. The children and adults can also avail of living rooms and family rooms as well as activity rooms and wheelchair accessible gardens and playground. Every adult and child accessing the service also have access to the wheelchair accessible vehicles. Wheelchair accessible vehicles can be booked through reception. Throughout the

Written By: Anne-Marie Carroll Director of Nursing	Date Issued: 31.01.22	Revision Number: 26
Approved By: Niall McHugh – Chairman Board of Directors	Review Date: 31.01.23	Page 6 of 44

service there is a sensory room for adults and a soft play area for children. There are many means of technology available to children and adults through the use of iPad, specially adapted computers and smart televisions as well as Digital television and mobile Wi-Fi.

d. Services which are to be provided to meet the care and support needs as described above

All children and adults supported in the disability service have intellectual and physical disabilities and require a maximum or high level of support. All are totally dependent for all their care needs.

Each child and adult has clearly defined needs including:

- Physical;
- Medical/Nursing;
- Social;
- Communication;
- Emotional;
- Recreational;

All children and adults require regular monitoring and review in respect of meeting these needs.

Clinical Care is provided by a team that includes; GP, Nursing Staff, Health Care Assistants/Nursery Nurses, Physiotherapist and Dietician. Non-clinical care is provided by Activities Coordinators, Discovery Coordinator, Administrative Secretary, Catering and Household Staff. (Support is accessed from Paediatrician, Occupational Therapist, Chaplain and Children's Palliative Care Clinical Nurse Specialist on a referral basis). All services offered are further enhanced by a team of volunteers who contribute in a very significant way. Nursing care provided is holistic and person centred in its approach with registered nurses on duty 24/7.

Each individual's care is planned by a Registered Nurse in consultation with the individual and/or their family. Each adult in residential care has an Integrated Care Plan which incorporates their person centred plan. Plans are formally reviewed annually, with the individual, family, other relevant service providers and the multi-disciplinary team.

Each child accessing respite services has an integrated care plan established prior to admission in consultation with the child and/or family; care plans are reviewed on each admission and focussed on goals identified at annual reviews and on every admission.

An individual Service Provision Agreement between the Designated Centre and each adult in residential care / parents/guardians of children in respite care is in operation. This contract sets out the terms and conditions, and rights and responsibilities of both parties (HIQA 2013). This document is drawn up in line with the Health Act 2007 (Care and Support of Residents in Designated Centres for Persons (Children and Adults) with Disabilities) Regulations 2013 and provides for;

- The support, care and welfare of the resident in the Designated Centre
- Details of the Services to be provided for the residents
- Fees to be charged (where appropriate)

4. Admissions to the Designated Centre

a. Registered Bed Numbers

The maximum capacity for the Centre is 14.

b. Age range of residents to be accommodated and gender of the residents living in the residential centre

Age Range	Gender	Number	Facilities Provided
25- 41	M & F	6	Adult Disability Residential Care
Birth – 18 th birthday	M & F	7*	Children's Disability Respite & Crisis Care

* 1 child is on long term placement awaiting appropriate residential placement.

c. Criteria used for admission to the designated centre

The Service's Eligibility, Admission and Discharge Policy is in operation to ensure that admissions to the service are timely and determined on the basis of fair and transparent criteria. (Ref Policy No: 4.10. Eligibility, Admission and Discharge Policy - Disability Residential Respite Services)

Eligibility & Admission to the Disability Residential Respite Service

The Adult Disability Residential Service is closed to new referrals.

The Children's Disability Respite Service accepts referrals to respite for children who:

- Are aged between 1 and 17 years of age (up to last day of 17th year) - young people referred at 16 years of age and over are considered individually depending on what transition plans for adult services are already in place.
- Have severe/profound learning difficulties, accompanying physical disabilities, complex medical and healthcare needs and who may have additional sensory impairments.
- Are vulnerable to acute changes in health which necessitates 24-hour care.
- Have complex needs requiring them to be managed by a registered nurse (i.e. Gastrostomy Tube Feeding, uncontrolled/unstable Epilepsy, unstable respiratory conditions).
- Are registered and supported by a Primary Disability Service.
- Live in the CHO East (Wicklow, Dun Laoghaire, Dublin South East), CHO 7 (Dublin South City, Dublin West, Dublin South, West Kildare/West Wicklow) & CHO 9 (Dublin North, Central Dublin, North West Dublin North)

The Children's Disability Respite Service do not accept referrals for children who:

- Are independently mobile;
- Exhibit behaviours that challenge or put themselves or others at risk;
- Children with tracheostomy/artificial airways;
- Require high medical and clinical team support.
- Live outside of CHO East, CHO 7 & CHO 9 areas.

The Adult Disability Residential Service:

- The 6 resident adults have security of a permanent home and are not required to leave against their wishes unless there are compelling reasons for the move i.e. National Policy, suitability of accommodation,
- Each adult/their representative is consulted with in advance of any move and has access to an advocate if they wish to object
- The arrangements for the transition of any adult within the residential service to a new residential service will be carried out in consultation with each adult/their representative and all transitions will occur in a timely manner with planned supports in place

The Children's Disability Respite Service

- The decision to discharge the provision of respite services is the responsibility of the Disability Referrals Team.
- Each child's eligibility to the Service will be reviewed annually or more frequently if need indicated.
- Transition planning to adult Disability Services will commence when the child reaches 14 years of age, The Service will work with the CHO Disability Case Manager to ensure the child is prepared for transition to adult service.
- A family may choose to voluntarily withdraw from children's Disability Respite Services and request to be discharged.

Arrangements when the Person in Charge is off site:

The Director of Nursing is the Person in Charge (PIC) and is normally on site Monday to Friday during office hours.

The Quality Risk & safety Manager (QRSM) is a PPIM and assumes the PIC role when the DON is on leave. An annual schedule is in place to ensure PIC cover is maintained. In the absence of the PIC/DON, a member of the Senior Nursing Team will be identified for clinical leadership to support the Quality Risk & Safety Manager. In the absence of the DON and the QRSM the Executive on Call are PPIM's and assume the PIC role with clinical leadership being provided by an identified member of the Senior Nursing Team.

One CNM 2 and two CNM 1 posts are operational, the CNM 2 provides clinical and professional leadership to the Designated Centre, whilst one CNM 1 has specific responsibility for the adult service and 2 part time CNM 1's for children's service. The CNM 2 works Mon-Fri and the CNM1's usually work office hours Monday to Friday with occasional weekends/evenings. CNM 1's take leave opposite each other to ensure continuity with clinical support and leadership.

A Staff Nurse is rostered 24/7 in the disability service and assumes shift lead responsibility in the absence of the CNM1. A Senior Nursing Team, 'Clinical on-Call' roster is in operation 24/7, 365 days per year, to ensure efficient and effective back-up support is available to staff on duty in the event of unforeseen emergencies. The Executive Team operate an on call roster covering the entire Service, 24/7 365 days per year, as an escalation route for managers in the event of major incidents, out of hours' media enquiries and service continuity issues. (Ref Guideline No 3.24; Executive and Clinical On-Call Guideline)

The rostered Clinical on-Call system applies to the hours where there is no on site senior nursing team cover.

- ✓ An identified nursing team member will carry the Clinical on-Call mobile phone; 087 222 8252.
- ✓ CNM1's and care teams on duty will be informed of the arrangements in place.
- ✓ A record of all calls received will be kept in the on call log.

b. Organisational Structure:

7. Resident wellbeing and safety

a. Development and review of resident personal plans

Each adult in residence has a formal annual review of their Care Plan & Global Assessments which incorporates their Person Centred Plan. The formal annual review is attended by the resident, their circle of support (family, appropriate members of the service's care team, the relevant disability day service/education provider). Each resident and/or their families/advocate are given a copy of the care plan during the annual review and as requested thereafter. The nominated keyworker reviews the care plan at a minimum monthly to ensure it is reflecting the adult's care and support needs.

Each child attending respite services has a review of their care plan on every admission.

b. Specific therapeutic interventions

Adults in residence have access to appropriate therapeutic interventions, by referral, which are carried out by appropriately qualified therapists.

Therapies include:

- Physiotherapy;
- Other appropriate therapies that may be requested or required from time to time

Therapists are orientated, guided and supervised on site by the most appropriate shift leader or manager.

c. Respecting residents' privacy and dignity

It is the policy of the Service to ensure that there are systems and practices implemented which uphold privacy and dignity to embed a culture of person-centred care, maintain standards, develop a supportive professional environment and promote positive attitudes, behaviours and dialogue between staff, the children and adults that use the service and their families.

Each resident has his or her own bedroom or bed space (for those who share twin bedded room) and are encouraged with the support of staff and families to keep personal possessions and to make their area as homely as is possible.

Our Intimate Care Policy (Ref Policy no:4.4) ensures that children and adults receive personal care and treatment in privacy, each bedroom has a privacy curtain/blind that will screen off the doorways, bathrooms are only used by one person at a time.

Sitting rooms are available for adults and children to meet in private with their family/visitors. Telephones and Skype are available if and when needed and personal time and space is allocated for this as appropriate. It is noted that many of the children and adults require assistance with managing such equipment and as such may need the facilitation of a team member for this activity.

Each child and adult has an individual personal file in which all data is managed and maintained by the key worker and/or shift leader. Records are kept private and locked in a secure location for safe-keeping. Each child or adult and/or their family may have access to their own records as they require in keeping with their individual capacity.

Each child and adult is allowed personal independence and autonomy in keeping with their age, cognitive ability and capacity. Each child and adult is communicated with the utmost respect and dignity, always addressing the child or adult directly when engaging with them in all activities. Each child and adult is consulted in relation to all aspects of their care and supports and in keeping with their age, cognitive ability and capacity.

d. Social activities, hobbies and leisure interests

Children and adults avail of a range of activities both on and off-site (health permitting). These are co-ordinated by the Recreation and Activities Co-ordinator/CNM's and supported by the Care Team, Health Care Assistants and Volunteers.

A variety of organised social activities are available to the children and adults. On-site individual and/or group sessions are held in residential houses and general use playrooms. Active community-based participation is also promoted through social outings, visiting community groups and volunteer involvement. Activities and therapies are creatively developed and informed by individual preferences, needs and goals as identified in care plans. Specialised therapies are designed to facilitate communication and sensory stimulation.

Written By: Anne-Marie Carroll Director of Nursing	Date Issued: 31.01.22	Revision Number: 26
Approved By: Niall McHugh – Chairman Board of Directors	Review Date: 31.01.23	Page 19 of 44

e. Education, training and employment

Our Education Policy, Education and Training Opportunities, and Day Activation Services Procedures promote educational and training opportunities for children and adults to maximise their individual learning needs, strengths and abilities.

Each adult in residential care is supported in accessing Day Services (health permitting) provided by local Disability Services.

Respite children are supported to continue to attend school when in respite where possible, if not possible the family identify goals for the child to attain whilst in respite.

f. Consultation with, and participation of, residents in the operation of the designated centre

Residential adults, and children attending for Disability Respite are consulted with on a regular basis as individuals, regarding their specific needs and desires. In the event there is a concern an individual may lack the capacity to inform their specific needs and desires, the designated service will consult the individual's family/circle of support. Where possible, autonomy is promoted by giving the children and adults the opportunity to plan their day i.e. - when they would like to get up, choices are given regarding meals and meal times and when they would like to rest/go to bed. Advocacy services are engaged if and when required to ensure that all stakeholders are acting in the best interest of children and adults.

The Service has established a subcommittee of the Board to represent family's interests and views. In principal the subcommittee consists of family representatives (from all strands of the service), Board members, CEO, Head of Operations, Director of Nursing, Marketing and Communications Manager and the Volunteer Co-ordinator. Nominations/volunteer parents represent hospice care and disability services. The objectives of the subcommittee with regards to the best interests of children, adults and families in each strand of the Service are:

- To provide an effective representative body for families (parents, siblings, grandparents, guardians, carers)
- To communicate effectively with the Board of Directors and staff to families/carers
- To develop and foster communications within the 'Families Groups'
- To allow for greater openness for communication and put forward suggestions, issues and concerns for the improvement of the service in an open and constructive manner
- To agree on the key actions and deliverables of the subcommittee and to review and monitor the implementation of these actions

The outcomes of Family Satisfaction Surveys are used to inform the services of changes or development requirements. In order to ascertain the views and suggestions from front line staff the CNM 1's will consult and represent them at committees/working groups, specific projects include facilitating focus groups with frontline staff.

A Rights Review Committee is operational in the best interest of the adults in residential care. The aim of the committee is to ensure robust processes are in place to protect and promote the rights of adults using the service and provide an avenue for adults to address possible restrictions within the organisation and

Written By: Anne-Marie Carroll Director of Nursing	Date Issued: 31.01.22	Revision Number: 26
Approved By: Niall McHugh – Chairman Board of Directors	Review Date: 31.01.23	Page 20 of 44

promote fair treatment. Membership includes staff within the designated centre and a family member (with legal background). A Terms of Reference, Referral Form and pathway for managing referrals are established.

g. Access to religious services of residents' choice

We are a non-denominational Service and accept referrals from people of all faiths, or to those belonging to no faith traditions. We ensure that any ceremonial service or ritual that takes place is in a multi-faith manner based on the faiths or non-faiths of the children or adults.

Our Chaplain facilitates a Quiet Time Service for the children and adults as required/requested and offers a quiet non faith based sensory time with reflective and inspirational music and periods of silence. The care team support arrangements for children adults to attend a religious service should they choose.

h. Contact between residents and their relatives, friends and carers

We operate a visiting children/adults policy, which recognises the right for all children and adults to maintain personal relationships and links with the community, and for residents, staff and stakeholders to be treated with dignity and respect. (Ref Policy No: 4.6 Visiting Children/Adult's Policy Disability Services).

i. Financial Charges for adults in residence.

Residential Support Services Maintenance and Accommodation Contribution (RSSMAC) refers to the statutory contribution towards maintenance and/or accommodation costs required to be paid by recipients of residential services. (Health Act 1970; Section 67 A, B & C).

Under the RSSMAC Regulations 2016 (S.I. No. 467 of 2016) each adult in residential care is obliged to pay RSSMAC for the nights that they are in the centre. Adults are supported to have financial assessments completed to determine the level of RSSMAC they have to pay. The CNM 1's maintain a record of the nights that residents are in the Service, these are submitted monthly to the finance department who in turn will invoice the resident.

j. Dealing with Complaints

It is the policy of the Service to ensure that there is an effective and comprehensive system in place for people using our services to provide us with feedback. The service welcomes and encourages feedback from the people who access our service and commits to learn from the information it receives and to use the learning to inform continuous improvements in our services. (Ref Policy No 1.3; Your Feedback Matters – Tell Us What You Think (incorporating feedback & complaints))

The service welcomes feedback from all stakeholders to ensure the delivery of high quality supports and services at all times. All feedback and concerns, verbal or written are acknowledged, reviewed, explored thoroughly, treated confidentially and responded to fully in a timely manner. Where necessary quality improvement plans are developed to prevent recurrence. Suggestion boxes are available at every entrance for comments and feedback.

The Service has a nominated Complaints Officer, Claire O'Sullivan (Executive PA). The request for a review of the management of a formal complaint can be referred through the Services internal appeals procedure or the complainant will be informed of their right to review by the Ombudsman or the Ombudsman for Children. (Ref Appendix 4).

Written By: Anne-Marie Carroll Director of Nursing	Date Issued: 31.01.22	Revision Number: 26
Approved By: Niall McHugh – Chairman Board of Directors	Review Date: 31.01.23	Page 21 of 44

k. Fire precautions and associated emergency procedures

The Services Health & Safety Statement incorporates arrangements for:

- the prevention of an outbreak of fire through the establishment of day-to-day fire prevention practices;
- the instruction and training of staff;
- the holding of fire and evacuation drills;
- the maintenance of escape routes;
- the provision of adequate fire protection equipment and systems;
- the inspection and maintenance of the fire protection equipment and systems;
- liaising with the Fire Authorities;
- maintenance of a Fire Safety Register;
- Visitors, staff, volunteers and residents sign in sheets are in operation at all entrances/exits and all must sign in and out of buildings;
- Emergency Evacuation Box is situated in each care area.

The Emergency Management Plan defines roles and responsibilities in the event of a major internal emergency. This includes actions to be taken in the event of any emergency defined as serious, unexpected and potentially dangerous situation requiring urgent action.

The Service has developed a Business Continuity Plan for the management of an Internal Emergency/Major Incident. The purpose of this document is to describe the escalation process for staff to follow in the event of an internal emergency/major incident within designated centre and Service wide.

L. Risk Management

The Service ensures that there is an effective Risk Management System in place in order to provide a high quality, safe environment to children, adults and their families using the service and an environment and culture that is safe for staff, volunteers and visitors and contractors. (Ref Policy No 7.1, Risk Management Policy)

The risk management process in the Service is both proactive and responsive in its applications and incorporates the identification, assessment, management and ongoing review of risks on an organisational and individual level.

The process outline in Appendix 2 shall be applied in relation to all incidents or potential incidents, accidents and near misses (Ref No: 7.4 Incident Reporting Policy and Procedure).

Clinical Incident Assessment

Child/Adult

- Serious accidental injury
- Serious illness
- Suspected/reported non-accidental injury or abuse
- Clinical advice and support

Approved By: Niall McHugh – Chairman Board of Directors	Review Date: 31.01.23	Page 22 of 44

Staff

- Serious accident
- In the event of unforeseen staff shortages, the on call person will assist/advice the Site PIC in sourcing adequate cover

Non-Clinical Incident Assessment

Facilities

- Outbreak of fire
- Loss of heating/electricity/water
- Disruption to catering services
- Breach in security

8. Arrangements in place for the Review, Approval and Communication of the Statement of Purpose and Function

The Statement of Purpose and Function is considered a live document, managed by the Director of Nursing in consultation with the CEO and Board of Directors. Updates to the Statement of Purpose and Function occur as required with the approval of the CEO, at a minimum the SOPF is reviewed quarterly. The SOPF is publicly accessible on the Services website and to families on request. The SOPF is communicated to staff on induction to the Service and available on the staff resource folder on computer and in the PPPG folders in each residential house. Updates to the SOPF are communicated by staff email to disability services staff and Executive Management team.

Covid-19 Contingency Planning

LauraLynn Ireland's Children's Hospice

1.0 Background

LauraLynn, Ireland's Children's Hospice provides a 'Community of Care' that comprises children's hospice service as well as an adult residential disability service and a children's disability service. All services operated from our main campus in Leopardstown, Dublin 18.

In December 2019, a novel coronavirus (COVID-19) was detected in three patients with pneumonia connected to the cluster of acute respiratory illness cases from Wuhan, China. By the end of February 2020, several countries were experiencing sustained local transmission, including in Europe.

As an initial response to the outbreak LauraLynn Ireland's Children's Hospice created an internal Covid-19 group (see appendix 1 for membership), which met on a weekly basis from 6th March 2020 to monitor the situation and discuss contingency plans if required.

As the situation continued to rapidly change, the group met on a daily basis to monitor daily updates from the Health Protection Surveillance Centre and manage operations in line with the guidelines from the Department of Health. Decision-making is based on Public Health advice in the interest of service users, staff, volunteers & supporters.

2.0 Clinical measures currently in place at LauraLynn

2.1 Adult Residential Service:

The adult residential service will remain fully operational but with the following restrictions:

- Attendance at day service and all other non-essential view excursions and activities have been suspended as of Friday 13th March
- Visitor restrictions have been in place since 13th March, and as of 20th June a phased reintroduction of visiting commenced
- Social distancing in practice with adults divided into 3 groups, and each group kept separate from the other
- Any essential medical appointments will go ahead unless advised otherwise by the HSE
- Families have been contacted and regular communication is ongoing.
- An isolation/treatment room has been established for COVID-19 positive residents.
- COVID-19 clinical and nursing care plans established in consultation with GP to implement in the event of a resident becoming unwell.
- All residents have temperature and well-being check twice a day, in addition to their normal clinical monitoring. The GP carries out 'ward rounds' as required via HSE virtual consulting

LauraLynn Children's Hospice, Leopardstown Road, Foxrock,
Dublin 18

Written By: Anne-Marie Carroll Director of Nursing	Date Issued: 31.01.22	Revision Number: 26
Approved By: Niall McHugh – Chairman Board of Directors	Review Date: 31.01.23	Page 32 of 44

2.2 Children's Disability Services:

- There are two children residential in Hazel House. Both have life limiting conditions. Of these, one teenager is under the care of the palliative care team and is very medically fragile. Both are in single bedrooms
- The respite service supports up to 12 children per week for respite on average 2 nights per week, in shared bedrooms. As a result, the appropriate course of action is to close routine respite from the 13th March so as to limit risks of exposure to the children in residence
- We have risk assessed the families that would be impacted and see it as a low risk for them
- Any family experiencing pressures can seek crisis care, each referral will be assessed on a case by case scenario. Crisis care will be supported in Hazel House from 29th June.
- Arrangements are in place for a phased reintroduction of planned respite breaks with reduced capacity from 10th August
- Visitor restrictions have been in place since 13th March. Parents of children in residence are permitted to visit (one at a time). Parents have temperature and well-being checks before coming into Hazel House and wear clinical masks whilst in the service.
- Contact with families has taken place and regular communication is ongoing.
- Residents have temperature and well-being checks twice daily, in addition to normal clinical monitoring. GP carrying out as required 'ward rounds' using HSE virtual

2.3 LauraLynn House:

- There was a phased reduction in routine short breaks implemented over the weekend of 13th – 17th March 2020
- We will continue to accept any end of life referrals and crisis care. Maximum of 3 children as they will have to be nursed in isolation. Children admitted to LauraLynn House, in addition to normal clinical monitoring, will have temperature and well-being check twice daily
- Visitors have been curtailed. Each case is assessed individually. For crisis care admissions only essential visiting of 1 parent may be permitted. For end of life cases immediate family members may be able to visit using side entrances.
- Contact with families has taken place and is ongoing
- Provision of services in families' homes was curtailed, but the team are available to provide support to families at home on request and subject to adequate risk assessments. A pathway has been developed of what services can be offered.
- Arrangements are in place for a phased reintroduction of short planned breaks from the 10th August 2020 in reduced capacity
- Family Support team are offering services remotely.

3.0 Other measures implemented

3.1 Infection Control Procedures

- Wipe-downs of high traffic areas (two hourly) at a minimum
- Covid-19 Signage has been placed at all entrances throughout the organisation
- Hand Hygiene stations have been set up at the entrance to each house and reception areas
- Infection prevention and control training is ongoing with all staff on site and is amended relevant to updated guidance's from the Health Surveillance and Protection Centre and HSE.

LauraLynn Children's Hospice, Leonardstown Road, Foxrock,
Dublin 18

Written By: Anne-Marie Carroll Director of Nursing	Date Issued: 31.01.22	Revision Number: 26
Approved By: Niall McHugh – Chairman Board of Directors	Review Date: 31.01.23	Page 33 of 44

- Any relevant training is ongoing and staff can access training on HSE and
- Breaks times are assigned in the restaurant for different staff groups to limit movement between teams. Seating & table arrangements
- Regular stock control taking place to ensure adequate supplies of Personal Protective Equipment (PPE) and hand gel etc. linking in with HBS to secure ongoing access to supplies
- Floor signage up in restaurant to ensure staff follow social distancing guidance
- Increased use of PPE in line with HPSC, including use of surgical masks in care areas when social distancing of 2 meters cannot be maintained.
- All staff have temperature and well-being checks carried out at the start of shift and before entering care areas, any staff presenting with COVID-19 related symptoms are sent off duty and asked to contact their GP. Nursing and Care staff have a second temperature and well-being check carried out during their 11.15 hour shift and if presenting with COVID-19 related symptoms will be sent off duty and asked to contact their GP.

3.2 Contingency Procedures

- Visitor Restrictions are in place
- Volunteers returning onsite will be orientated and only coming in for specific purposes, virtual volunteering programme ongoing
- Postponement of non-essential events & activities on site has been implemented
- 45 staff have been facilitated to access remote working to enable working from home
- Rosters have been created to ensure 1 member of the executive management team are onsite between Mon-Fri and a senior nursing team is on site 6 out of 7 days at a minimum with a Clinical Nurse Manager working on a Sunday
- In the case of a suspected or confirmed case:

Clinical staff to contact Clinical Nurse on Call

Non-Clinical staff to contact Line Manager who will contact Exec on Call

A member of the SNT is the identified staff COVID-19 occupational health contact and a special phone has been established for this. They work in collaboration with HR to ensure staff receive the most up to date and relevant information, advise and support.

- Isolation rooms have been identified
- PPPG's being created, updated and reviewed continuously to ensure the service is operating in line with the most up to date Infection prevention and control guidance.
- Succession planning and workforce have been identified in relation to who is available to work extra and flexible hours in the case of reduced workforce
- All workforce contact information has been updated
- Mount Charles has implemented emergency food supply onsite in the case of reduced service
- Departmental roster in place to identify who is onsite and working from home on a daily basis
- Covid-19 service planning spreadsheet has been developed and updated on a daily basis
- Medical cover is to be provided by phone, HSE consulting app or healthmail
- Clinical meetings are taking place weekly and more frequent if required.

3.3 Communication

- Guidance & updates to staff, volunteers & families has been issued and ongoing

LauraLynn Children's Hospice, Leonardstown Road, Foxrock,
Dublin 18

Written By: Anne-Marie Carroll Director of Nursing	Date Issued: 31.01.22	Revision Number: 26
Approved By: Niall McHugh – Chairman Board of Directors	Review Date: 31.01.23	Page 34 of 44

- Website has been updated and is ongoing
- Answering staff HR queries
- Regular contact with the Board, HSE and DOH
- Assigned Social Service's Inspector in HIQA and fortnightly phone calls taking place. Notifications being submitted as appropriate.
- Ongoing communication with peers and healthcare providers re: re-deployment of staff
- WhatsApp group has been created for care staff in the hospice and disability services as many don't currently have remote access to email
- All staff SharePoint site being developed as a repository for important information & communications.

3.4 Occupational Health

- Practice Development Manager identified as Staff Occupational Health contact person for all COVID-19 queries and is following HSE, HSPC and Services Occupational Health service guidance.
- Record maintained of all staff queries and absences related to COVID-1

4.0 Ongoing measures:

- Continue to follow guidance from the department of health, public health and the health protection surveillance Centre and HSE
- Covid-19 Group to continue to meet on weekly to review and monitor updates
- Clinical and Senior Nursing Team meet weekly to go through any clinical issues arising and updated guidance. Daily monitoring of government/HSE/hspc/Dept of Public Health updates

5.0 Measures that may need to be implemented

- Redeployment of staff to other healthcare facilities
- Provide beds on the request of the HSE. Beds have been offered to CHI
- Isolation room has been identified and sensory room the disability services has enough for 7 single bedrooms if required.

6.0 Worse case scenarios

- Clinical staff diagnosed with Covid-19, who have been working onsite
- Service user diagnosed with Covid-19 and not recovering
- No PPE stock
- Severely reduced staffing levels resulting in not being able to provide core clinical services to the residents.

Covid-19 Returning to Work on Site Safely

LauraLynn Ireland's Children's Hospice

7.0 Context

During the Covid-19 pandemic Irish people have almost universally stepped up to the plate and adhered to the strict guidelines put in place by the Government, following the advice of the National Public Health Emergency Response Team (NPHET).

Because of this strict adherence to the rules, everyone has contributed to the progress that Ireland has made in containing the spread of COVID-19 and, in so doing, lives have been saved. Now, because of the progress made, the country is beginning to move to the next phase in reducing the spread of the virus, while starting to gradually re-open the economy and society. In doing so, we still need to make sure that we adhere to the rules of the new way of living and working, so that we maintain the gains that have been made, and continue to suppress the spread of the virus. Work is a key part of life and most of us want to return to our jobs as soon as possible. But we need to get back to work safely.

In May 2020 the Government issued a roadmap for re-opening society and businesses. The Government has been working with a range of Departments and stakeholders to draw up a roadmap for modifying restrictions imposed to combat the COVID-19 pandemic. This Roadmap includes:-

1. A sequence of actions to re-open the economy and society
2. A decision-making framework for Government
3. A process for engaging with unions, employers and other representative groups to build a co-operative approach to re-opening workplaces and other facilities
4. An updated economic policy response
5. Updated response on other pressing societal concerns
6. Travel and international co-operation

The Roadmap is guided by a number of over-riding principles. That is, an approach which is:-

- Safe – informed and guided by a public health assessment of risk
- Rational - includes consideration of the social and economic benefits and impacts of any modifications of restrictions and their feasibility
- Evidence-informed – uses all of the data and research available to us to guide thinking
- Fair – Ethical and respects human dignity, autonomy and supports equality
- Open and transparent – decisions are clear, well communicated and subject to the necessary checks and balances
- Whole of Society - based on the concept of solidarity and supporting cohesion as we exit over time

LauraLynn Ireland's Children's Hospice is committed to implementing all of the recommended measures that are required to ensure that our service users, staff, volunteers, families and visitors are safe when returning to LauraLynn. In order to achieve this the Executive Management Team have been working to develop its own Roadmap to re-opening its services in line with the Government Roadmap.

8.0 LauraLynn's Returning to Work on Site Safely Steering Group

As well as the roadmap the Government issued a Returning to work Safely Protocol. It is designed to support employers and workers to put measures in place that will prevent the spread of COVID-19 in the workplace, when the economy begins to slowly open up, following the temporary closure of most businesses during the worst phase of the current pandemic.

As detailed in section 2 and 3 above, LauraLynn implemented a significant amount of measures to allow LauraLynn to continue to operate and provide services to children, adults and their families, at a reduced capacity during the Covid-19 pandemic, however, there are additional measures outlined in the Returning to Work Safely Protocol that need to be implemented in order to protect our service users, staff, volunteers, families and visitors further. Therefore, the Returning to Work Safely Steering Group has been established, to oversee and ensure these measures are implemented.

The Steering Group meets on a weekly basis, is jointly chaired by the Head of Human Resources (HR) and Quality, Safety and Risk Manager and comprises of the following members:

- Head of HR
- Quality, Safety and Risk Manager
- Director of Nursing
- Quality, Safety and Risk Officer
- Facilities Manager
- Practice Development Manager
- Head of Marketing and Communications

The Quality, Safety and Risk Officer has also taken on the role as Covid-19 Lead Worker Representative. The purpose of the role is to be a voice for staff as LauraLynn go through the phased process of re-opening. The Quality, Safety and Risk Officer shall support and deal with any queries staff may have regarding the return to work safely project and will raise on their behalf, any concerns, issues or questions they may have, that staff would like the steering group to be aware of or consider.

9.0 Measures to Protect Service Users and Families

9.1 Adult Disability Services:

The following additional measures have been implemented:

- Family visiting the adults has been reintroduced from 8th June 2020
- Visiting is subject to the current situation remaining as is both in service and nationally, should there be a re-emergence of Covid-19 LauraLynn may need to reconsider this plan.
- No more than 2 adult family members can visit at any time
- All visits will take place outdoors in sensory garden between HH & WV weather permitting, alternatively the family room in HollyOak can be used.
- Visitors are required to ring Willow View when on site and enter through the garden area at the back of Willow View (in between Willow View and Hazel House)
- No visitors are not permitted in the building, with the exception of the following;
 - Temperature & wellbeing check
 - Hand Hygiene
 - Sign in
 - Use of bathroom facilities
 - In the event of bad weather, the family room in HollyOak may be used for visits
- Strict social distancing of 2 metres apart will be practiced at all times, if social distancing cannot

- be maintained PPE will be provided
- A member of the team will remain with the adult during visit as a support.
- An activity can be arranged for the visit to facilitate this new way of spending time together
- Visitors that are feeling unwell, have recently been in hospital/returned from travel abroad are not permitted to visit
- Visitors will have a temperature and wellbeing check with a member of the nursing team prior to commencing visit, to ensure they are well.
- Times for visiting will be scheduled through the CNM 1.
- Only one family visit permitted at any given time.
- Time slots for visiting adults are 1100 – 1200 and 1600 - 1700
- Recommend that visits should be for no longer than half an hour, however appreciate that there may be circumstances where this time might run over.
- A table is established in the day room for visiting, which will include:
 - Alcohol Hand gel
 - Surgical Masks
 - Aprons
 - Sign in sheet
 - Pens
 - Visiting fact sheet
 - Signage on safe donning and doffing of PPE
 - Hand Hygiene Signage
 - COVID-19 Temp & Wellbeing check doc
- All visitors have been given a fact sheet outlining guidance for visiting LauraLynn
- Wipe down of visiting area to be completed by staff pre and post visit
- Sensory garden furniture has been positioned to identify social distancing
- A choice of wipe-able activities/games available
- Risk Assessment completed for visiting and monitored
- Telephone calls to 9 residential families were made on 03/06/2020 and 04/06/2020 outlining guidelines for reintroduction of visitors
- Letter sent to 7 adult residential families outlining rules for visiting emailed and posted on 04/06/2020
- Visiting guidelines have been updated to reflect the measures implemented
- If a visitor becomes unwell during the visit:
 - Staff are aware to remove the resident immediately from the area and call for assistance
 - If a visitor has a colleague with them, the member of staff present will ask them to bring the person off site to a hospital/GP/home, depending on their presentation
 - If a visitor is on the own the member of staff will take the person to the 'visiting area' and contact a family member to come in and collect them or the staff member shall contact an ambulance, depending on their presentation.

9.2 Children's Disability Services:

The following measures have been implemented:

- The HSE Reshaping Disability Services from 2020 and beyond in line with COVID-19 restrictions (V2, 29 May 2020)
- The phased re opening of respite beds has been risk assessed and is being closely monitored by Director of Nursing and Senior Nursing Team
 - 1 crisis bed reopening 29th June
 - 2 crisis bed reopening 20th July
 - 2 respite beds opening 10th August
- Reduced respite capacity from 4 to 2 beds for the remainder of year
- Crisis referrals are individually assessed considering care needs of child/supports required, capacity (staffing and accommodation), date for admission, duration of admission (based on

assessment of need) – communication with family, inform family/referrer of procedure is ongoing

- A pathway for managing crisis referrals has been established
- A pathway for managing respite/crisis admissions and discharges has been established
- Visiting policy in place – only 1 parent of residential children permitted in house, max 2 adult family members permitted for patio visits
- Prior to coming in for crisis respite a risk assessment is completed
- The parent/guardian is required to complete a self-declaration form that they have not had a temperature or been in close contact with a person who was known to be COVID-19 positive for the previous 14 days
- The parent/guardian will be asked for the child's temperature to be taken prior to admission to Respite (a fever is 38 degrees Celsius or above) – if the child has a temperature they will be advised to self-isolate as per HPSC guidelines and not admitted to the service
- A letter outlining the pathway and giving dates for the remainder of year has been sent to families

9.2.1 Admission for crisis respite

- Parents/guardian is advised to come in at a specific time (NOT coinciding with residents visiting times)
- Parents/guardian are to enter via garden in between Hazel House & Willow View
- Parents/guardian are to ring Hazel House when they are at the back door
- Staff shall carry out temperature and wellbeing checks for the parent/guardian and child and the self-declaration form is completed
- Staff shall show parent/guardian how to perform hand hygiene, give them a surgical mask and demonstrate how to put on and take of same.
- Staff member to bring parent to the family room in Hazel House and the child into Hazel House
- Staff member to go through the handover of care in the family room and let parent/guardian leave via back door
- Staff member to wipe down all contact areas in family room

9.2.2 During Admission

- The child will be monitored throughout the respite stay for signs of COVID-19, at a minimum with twice daily temperature and wellbeing checks being taken
- If a child begins to show signs of COVID-19 symptoms they will be isolated for 14 days
- The 2 metres social distancing will be maintained between all children in the house
- If a child becomes unwell during a respite stay the following will be implemented:
 - The child will be isolated
 - The child will be assessed
 - The GP will be contacted if necessary
 - The family will be contacted
 - The child will be discharged to the care of the parents
 - The bedroom, living space and equipment used by the child will be deep cleaned
 - Close observation to be maintained on other children in the house
- Where a child has been tested positive for Covid-19 during or post a respite stay temporary suspension of respite services will commence whilst the house is deep cleaned and a risk assessment has been completed
- Where a residential child in the house has been tested positive for Covid-19 the following will be implemented:
 - The child will be cared for in isolation
 - Staff will implement the care plan for nursing a child with COVID-19
 - Availability of crisis bed in Hazel House will be suspended

- o All potential contacts will identified
- o Guidance from the Department of Public Health will be followed.
- o HIQA will be notified
- o Consult with LauraLynn House with regards to making a bed available there for crisis admissions
- o Communication will be sent to families as relevant

9.2.3 Discharge from Crisis Respite

- Parents/guardian to be advised to come in at a specific time (NOT coinciding with residents visiting times)
- Parents/guardian will enter via the garden in between Hazel House and Willow View
- Parents/guardian will ring Hazel House when they are at the back door
- Staff shall carry out temperature and wellbeing checks of the parent/guardian
- Staff shall show parent/guardian how to perform hand hygiene, give them a surgical mask and demonstrate how to put on and take of same
- Staff member will bring the parent to the family room in Hazel House
- Staff member to go through the discharge of care in the family room, bring the child out to parent/guardian and let them leave via the back door
- Staff member shall wipe down all contact areas in the family room

9.3 LauraLynn House

The following measures have been implemented

- HSE Reshaping Children's Palliative Care Services from 2020 and beyond in line with COVID-19 restrictions (V2, 29 May 2020)
- Hand Hygiene/Cough Etiquette/Appropriate PPE/Social Distancing/Office Etiquette/Reduced Staff on site all in place
- Staff are required to have their Temperature & Wellbeing assessments, twice daily
- All children are required to have twice daily Temperature Assessments
- Phased re opening of short stay beds will be risk assessed and closely monitored by Assistant Director of Nursing & Senior Nursing Team
- 3 crisis beds and 1 End of Life (EOL) beds are open for the duration of the pandemic April-August 10th 2020
- Allocation of short stays have been reduced to 3 nights (total) for each child for the remainder of the year to ensure fair and equitable service is provided to all
- Bed capacity has been reduced to 4 beds for the remainder of the year. This will remain under review in terms of social distancing and staffing levels
- 3 short stay beds (1-3 day duration) and 1 crisis/EOL bed is reopening from August 10th 2020
- 4 children may avail of short stays at any one time but in the event of a crisis/EOL referral, one child to be discharged home. This will be risk assessed by the nursing management and Clinical Nurse Specialist teams on an individual case basis
- Crisis referrals will be individually assessed considering the care needs of the child/supports required, capacity (staffing and accommodation), date for admission, duration of admission (based on assessment of need) – communicate with family, inform family/referrer of the procedure to follow.
- Pathway for managing crisis referrals established and implemented

9.3.1 First Stays

- All new children referred to the hospice and have been on hold during the COVID 19 pandemic will be allocated First Stay's from August 10th 2020
- All aspects of admission will be same for all booked/crisis stays and risk assessed accordingly.

Immediate family members/guardian will be permitted to stay in family accommodation based on risk assessment completed by CNS/Nursing Management prior to allocating dates for this stay

9.3.2 Family accommodation

- Closed to all families from April until the re-opening of short stay beds from August 10th 2020
- Reduced capacity when re-opens on August 10th 2020. The maximum of 2 bedrooms will be available to families to facilitate social distancing and ensure infection control protocols adhered to
- The nursing management and CNS teams will assess families permitted to avail of family accommodation at the weekly Bed Management Forum and include in the child's risk assessment prior to their stay. Priority will be given to children/families outside Dublin area
- No visiting is permitted during short stays unless it is an emergency case i.e. child becomes unwell/requires transfer to hospital

9.3.4. Butterfly Suite

- All children who avail of the service may access the Butterfly Suite in the event of their death, each death will be risk assessed by nursing management/CNS team on an individual basis
- 6 immediate family members only at any one time is permitted in Butterfly Suite
- A further 9 family members may access the garden area outside the Butterfly suite (as per current social distancing guidelines of 2 metres)
- People may enter the Butterfly Suite via external garden doors but only to maintain a total of 6 people at any one time between 2 rooms of the suite

9.3.5 Prior to coming in for a crisis stay/short stay

- A risk assessment will be completed
- The parent/guardian will complete a self-declaration form that they have not had a temperature or been in close contact with a person who was known to be COVID-19 positive for the previous 14 days
- The parent/guardian will be asked for the child's temperature to be taken prior to admission (unacceptable pyrexia is 38 degrees Celsius or above) – if the child has a temperature they will be advised to self-isolate as per HPSC guidelines and not be admitted to the service

9.3.6 Admission for stay

- Parents/guardian will be advised to arrive at a specific time-one parent/guardian only, no siblings/other family members are permitted
- Parent/guardian to ring doorbell at LauraLynn House reception
- Parent is required to go straight to the reflective space in the reception area for a wellbeing check
- Staff nurse in PPE (surgical mask, apron and gloves) will carry out temperature and wellbeing check of parent/guardian and child and obtain the self-declaration form
- Staff nurse will provide hand gel to allow the parent to perform hand hygiene (hand washing facility also available), surgical masks will also be provided
- Staff member will bring the child into the hospice following satisfactory wellbeing check
- Staff nurse will complete the nursing admission with parent/guardian in the reflective space, and the parent will leave via reception once completed. Or if availing of family accommodation-go directly there via the door entering the hospice entrance hallway
- Staff member to wipe down all contact areas in the family room and all incoming equipment/supplies

9.3.7 During Admission/Short stay

- The child will be monitored throughout the short stay for signs of COVID-19, with a minimum with twice daily temperature and wellbeing checks
- 2 metres social distancing will be maintained between all children in the hospice
- If a child begins to show signs of COVID-19 symptoms the:
 - Child will be isolated
 - Child will be assessed
 - GP contacted if necessary
 - Family will be contacted
 - Child will be discharged to care of parents/transferred to hospital
 - Bedroom, living space and equipment used by child to be deep cleaned
 - Close observation to be maintained with other children in hospice
- If a child is diagnosed as COVID-19 positive during/post short stay:
 - Child will be isolated
 - Child will be assessed
 - GP contacted if necessary
 - Family will be contacted
 - Child will be discharged to care of parents/transferred to hospital
 - Bedroom, living space and equipment used by child will be deep cleaned
 - Close observation will be maintained for all children in hospice.
 - Temporary suspension of short stay services whilst hospice is deep cleaned and a risk assessment completed

9.3.8 Discharge from Crisis/Short Stay

- Parents/guardian are advised to arrive at a specific time
- Parents/guardian to ring doorbell at reception
- Parents/guardian to enter the reflective space via LauraLynn House reception
- Staff nurse in PPE to carry out temperature and wellbeing check of the parent/guardian
- Staff nurse will provide hand gel and surgical mask for the parent/guardian in the reflective space
- Staff nurse to go through discharge of care with the parent/guardian in the reflective space, staff shall bring the child and all belongings out to the parent/guardian and allow them to leave via reception door
- Staff member to wipe down all contact areas in the reflective space
- Families availing of accommodation must remove all belongings from rooms prior to discharge, discharge of child will take place in reflective space as per all other discharges
- Letter outlining the pathway sent to families
- All short stays booked are subject to cancellation
- Social distancing will be maintained between children at all times

10.0 Other Measures Implemented

10.1 Infection Control Procedures

- All staff must have their temperature & wellness assessed each day before entering any building on site
- Staff must sanitise their hands using the hand gel dispensers located in the reception areas next to the sign-in sheets and follow hand hygiene guidance
- All work stations/desks, IT equipment and vehicles must be cleaned before use using the anti-bacterial wipes provided

LauraLynn Children's Hospice, Leonardstown Road, Foxrock,
Dublin 18

Written By: Anne-Marie Carroll Director of Nursing	Date Issued: 31.01.22	Revision Number: 26
Approved By: Niall McHugh – Chairman Board of Directors	Review Date: 31.01.23	Page 42 of 44

- Office based staff shall follow the Office Etiquette guidelines - daily wipe downs, no sharing of cups, bottles etc.
- 2-meter social distancing is maintained at all times, including when walking along corridors where standing in close proximity should be kept to an absolute minimum
- In order to ensure good respiratory etiquette, bins have been provided in every office. It is the responsibility of each staff member to empty office bins daily using the correct PPE (disposable gloves). A central location is located for daily disposal of these bins at Little Oak Reception and Rowan House ground floor
- Only staff providing care to service users and their families are to access the units/care areas where they are located. **All other staff shall avoid going to these buildings unless it is absolutely necessary.**
- For their own protection and for the protection of others, staff should wear face masks/coverings if using public transport to and from work
- To ensure there is a continued supply of PPE, masks etc. are only issued to staff who are in close proximity to, or are caring for service users
- Members of the clinical / family support team that provide direct care are required to bring work clothes with them to work. Work clothes are not worn to or from work, to protect our service users and each other. Work clothes are washed at 60 degrees and where possible tumble dried or ironed. Where 60-degree washing is not possible, work wear must be either tumble dried or ironed after washing
- An additional screen has been put up in the restaurant
- No handshaking policy has been implemented

10.2 Contingency Procedures

- LauraLynn has developed an Organisational Roadmap for the phased re-opening of its services in line with the government roadmap
- All staff who have been working from home and have not worked in the office are required to complete the Pre-Return to Work Self-Declaration Form 3 days before returning on site
- A Return to Work Safety Induction pack has been developed for all staff
- The organisation maintains a contact log of all people on site daily through Clockwise, Vitro, sign-in sheets and temperature and wellness assessment forms. If contact tracing has to be implemented, you will be contacted. Contact tracing will be kept under review
- The organisation's health and safety statement has been updated to reflect the measures that have been implemented
- Line managers are required to identify any members of staff within their department who may have been identified within the COVID-19 "at risk/vulnerable" category. Where approved by a medical professional to return to work the individual shall complete a risk assessment with their line manager, before they can return to work
- The Emergency Management Plan and Business Contingency Plan has been updated to reflect the measures that have been implemented to manage the COVID-19 pandemic
- Contractor induction pack has been developed and available online. Contractors are required to read this before commencing work on site
- Pathway for when a staff member becomes ill with suspected COVID-19 has been developed

10.3 Communication

- All staff working from home are required to complete the Display Screen Assessment training on the HSE Land and complete the Display Screen Assessment Form
- The Covid-19 Group meet once/twice a week or as necessary
- A Working from Home (Remote Working) policy and Office Etiquette guidelines have been developed and circulated to staff COVID-19 general risk assessments have been completed for the clinical and non-clinical areas to ensure it is safe for staff to return to work and carry out
